

## Why our clients work with us

### Experience

Trusted by events professionals for more than 20 years, we've worked on every type of event, alongside many of the world's top brands.

### Guidance

We will guide you through the process to ensure your event is delivered on time and on budget.

### Ease

We understand event managers and the challenges that events can present. We're all about making your job easier and creating long-lasting relationships.

### Technology

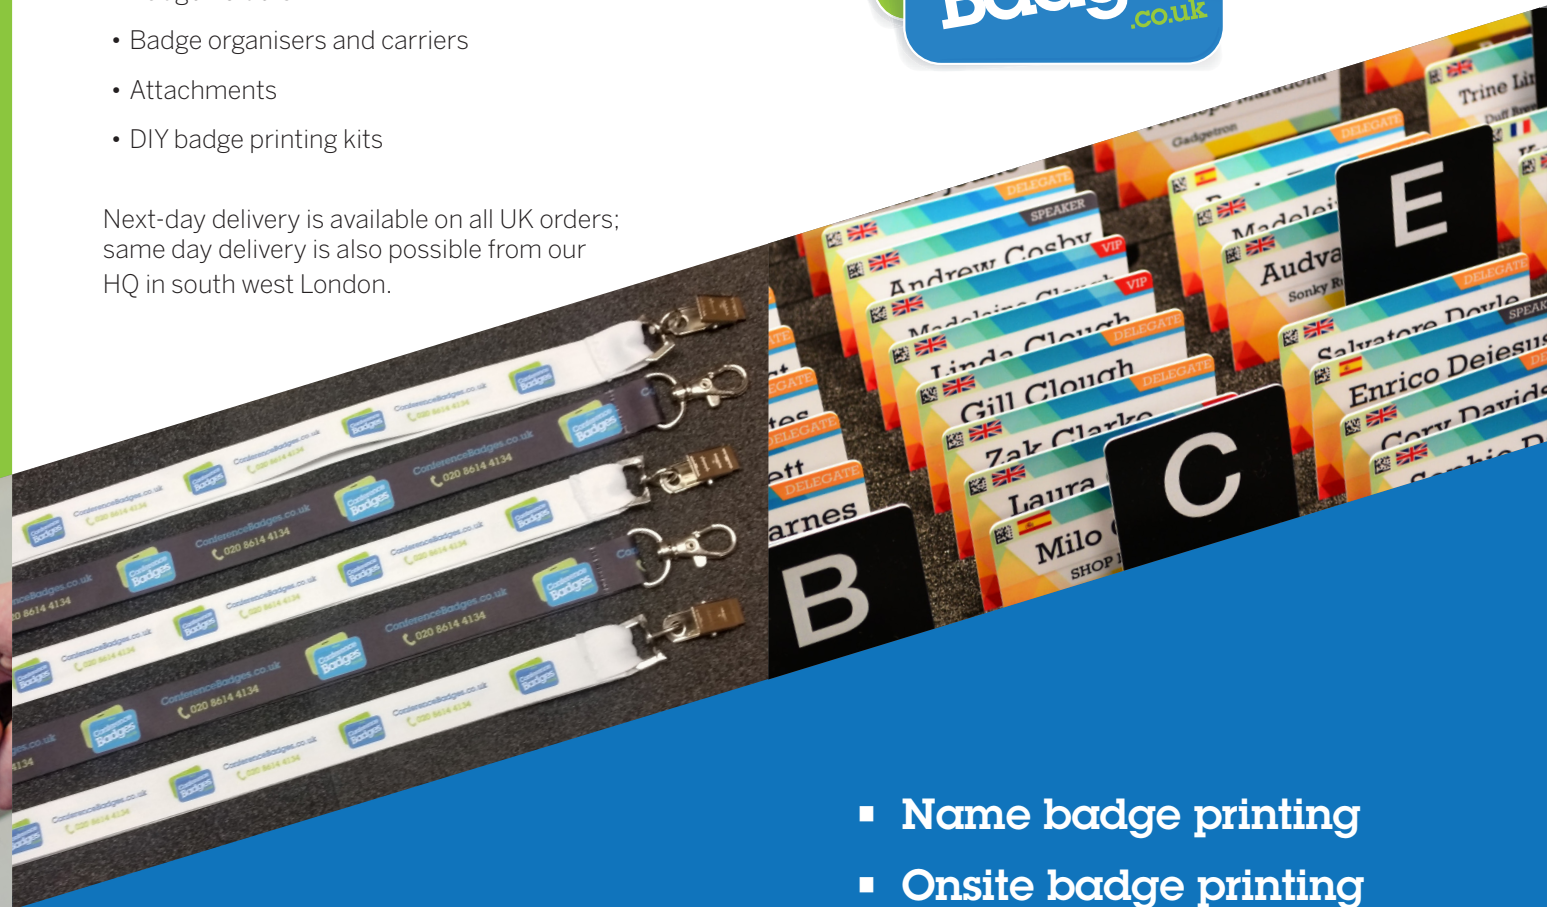

We're industry leaders in ultra fast printing and queue busting solutions.

### Bespoke solutions

After something we haven't mentioned here? Contact us to discuss our bespoke solutions.

Conference Badges is based in south west London.

## Full-service name badge printing

Conference Badges is the place to go for beautiful, professional name badges for events of all sizes:

- **Fully branded and personalised badges**  
PVC credit card style or larger paper formats.
- **Badge assembly service**  
Stress free and simple: just open the box and start registering your guests! Badges are grouped and sorted how you like them.
- **Event integration**  
Upgrade your name badges: include a QR code for tracking your guests; utilise RFID technology for use at physical touch points; or add generic or personalised agendas.

## Getting the right badge

### Designer badges

Our credit card style badges offer precision, high-definition printing, on durable cards.

Providing a single or double-sided print, we offer a fast turnaround on small and large scale projects. These professional looking name badges create a positive and lasting impression of your event.

Bio-degradable options are also available.

### Paper badges

Paper badges are ideal when you have more to say.

Perfect for an exhibition, our A6 'Jumbo' badges allow for extra information to feature, such as an agenda or floor plan on the reverse.

Our Butterfly badges also come in an A6 format, or our smaller 'Compact' size. Designed to act as a dependable onsite solution, the Butterfly Badge allows for both sides to be personalised simultaneously for direct lanyard attachment.

## Registration and data capture technology

### Onsite badge printing

Print in seconds using scan-and-print or our rapid delegate search-and-print software, through our on-demand system. We've managed events with thousands of attendees, across multiple venues and many countries.

### Lead Capture

Deliver higher return on investment for your exhibitors and create an additional revenue stream for your organisation through our lead-capture devices.

### Tracking

Know where your attendees visited and what their interests are.

### With or without onsite support

Let our tech experts ensure your event runs flawlessly. Alternatively, we can supply equipment on a dry hire basis for you and your team to use.

### Reporting

Live attendance figures and detailed post-event reports.
